Our panel

The key speaker is **Professor Dorota Religa**, in division of Neurogeriatrics Department of NVS, Karolinska Institutet, Sweden.

Prof Religa is a Consultant Physician in Geriatric and specialises in dementia. Dorota will be speaking about the assessment of drivers with dementia, the Karolinska experience and the impact of the Swedish Dementia Registry, (SevDem). This is a national quality registry on dementia disorders with 55,000 patients. The Data from SveDem is used in Sweden to further develop the national dementia guidelines, research and serves as a framework for ensuring the quality of diagnostics, treatment and care of patients.

Programme of Speakers for the Clinical Update include:

- **Chair: Dr Declan Bedford**, Chair of the RCPI Working Group on Traffic Medicine, Specialist in Public Health Medicine.
- **Prof Dorota Religa**, Consultant Physician in Geriatric Medicine, Karolinska Institutet, Sweden
- **Prof Desmond O'Neill**, National Programme Director of Traffic Medicine
- **Prof Tadgh Stapleton**, Occupational Therapy
