Practice of Professional Supervision for Current Supervisors – Four Day Workshop

This course is designed for OTs and SLTs who are currently supervising staff. The workshop is for four full days. Participants attend two days and then a further two follow up days 4-6 weeks later. Participants are given activities and tasks to complete between the first and second workshop sessions. Workshops include a mix of teaching, discussion, exercises, interaction and practice. A strong emphasis is placed on experiential and interactive learning. The target audience is senior and manager therapists who provide supervision in their clinical practice.

Course Aims:

To provide participants with an understanding of the purpose and functions of professional supervision in the context of their work and to develop supervision skills.

Workshop Facilitator:

Eileen O'Neill is the workshop facilitator. Eileen O'Neill is a leading expert in the area of Professional Supervision in Ireland and has published extensively on the topic.

Course Content:

- Theory around Professional Supervision (What is Professional Supervision, Importance of Supervision, Functions of Supervision, Challenges of providing or engaging in supervision)
- Developing skills necessary for effective supervision

- Analysing current challenges in relation to supervision and developing strategies with regard to addressing same
- Frameworks and policies for professional supervision
- Developing action plans for how to implement training into practice
